***DECONCENTRATION POLICY***

It is the Housing Authority of Lincoln County's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Housing Authority of Lincoln County will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

*HALC is non-asset management and maintains all of our 99 units in one amp, there is not much geographic distance and differences among properties. Therefore all of the public housing units operate from one waiting list. When a unit becomes available it is offered to the next applicant on the waiting list. If the applicant is currently employed in the central part of the county, they often will not accept a unit that is located outside of their comfort distance for travel. Lincoln County does not have a reliable and comprehensive transit system.*

*The attached analysis worksheet reflects the average, unadjusted income of the families residing at each property. Of the six sites, two are currently below and two are above the established range, based on the agency-wide average income.*

*Project 5001 is located eight miles from central Newport, with limited public transportation options. Applicants who are on fixed incomes or not currently employed are more likely to accept these units, resulting in a lower average. The averages on the small properties can be easily changed by just one household's income.*
